GT064-100 Drape With Hole

Material: PU or Lo Drape
 Pu Drape Is a Transparent, Adhesive Polyurethane Film,
 Which Can Adhere Throughout Long Surgical Operations To The Surrounding Skin And
 Most Importantly To The Wound Edge, Thereby Significantly Lessening The Chance Of
 Compromising The Sterile Environment.
 Iodrape Is An Enhanced Surgical Drape Product That Is Impregnated With Iodophor P.V.P.
 Iodrape Helps To Maintain A Sterile Barrier, Lowers The Risk of Microbial Transmission,
 and Significantly Lowers The Colony Forming Units (CFU'S) of The Bacteria Staphylococci
 During Use In Operations. The Need For The Enhanced Product Is Especially Useful For The
 Following Operations: Orthopedic Procedures, Cardiac Valve Replacements, Venous
 Retention Suture <needle>, Peritoneal <encheiresis> Therapy, And By-pass Operations
 of The Cerebrospinal Fluid.
Features:
 Breathable
 Transparent and Thin
 Conformable and Elastic
 Easily Applied To The Skin
Sterilization: EO
 Size: 50cmx50cm, 70cmx90cm,70cmx110cm,
 150cmx200cm or Other Size Per Customer'demand

GT063-700 Ebola Head Hood

SHIELD MATERIAL

The shield must be made from a material that is anti-fog.

NONWOVEN MATERIAL

The Nonwoven material is used to make Tychem QC (a nonwoven made by coating Dupont Tyvek with a Polyethylene coating) with excellent resistance against biohazards such as blood, body fluid, and viral contaminants, and passes ASTM F1670 for blood penetration and F1671 for viral penetration. The requirement for this application is that the material passes ASTM F1670 and F1671.

GT063-600 Ebola Protection Coverall

Ebola coveralls provide the protection and durability you need so you can focus on the task at hand.

Made of flash-spun, high-density polyethylene which creates a unique, nonwoven material. The protection is built into the fabric itself; it can't be abraded or worn away. Our coveralls are engineered with our unique comfort-fit design to give wearers what they want — a greater range of movement, improved mobility, a more tailored fit, and better overall comfort.

Meets the EN14226 compliance material testing which is the standard for protection against infective agents and blood-borne pathogens.

Serged Seam Coverall with open wrist and ankle.
